OUR FOCUS FOR LEARNING IN AUGUST

A huge thank you to all the families that have been sharing their experiences and offering us ideas on what to extend on! We have been printing them off daily and using them to guide our program and planned learning experiences. The children have also been using the material to share the experience with their peers and this is a huge confidence booster!

The current topics which we are extending on are Dental hygiene, everyday and sometimes foods, dinosaurs the Indian Rakhi Celebration and road safety.

We have also been teaching children how to wash their hands, social distance, cover their sneezes and cough with their elbows and stay away from germs, we please ask that you ask them what they learnt about their day and encourage their learning further. If you need some inspiration please go to our daily diary community posts and see what the focus lessons for the day were.

NATIONAL ABORIGINAL & TORRES STRAIT ISLANDER CHILDREN'S DAY – AUGUST 4

Children's Day is a time for Aboriginal and Torres Strait Islander families to celebrate the strengths and culture of their children. The day is an opportunity for all Australians to show their support for

Aboriginal and Torres Strait Islander children, as well as learn about the crucial impact that culture, family and community play in the life of every child. Our theme *Elders of Tomorrow* highlights the uniqueness and importance of the knowledge and wisdom of Aboriginal and Torres Strait Islander peoples, starting in childhood. **Find our more here.**

KEEP AUSTRALIA BEAUTIFUL WEEK – AUGUST 17 - 23

Keep Australia Beautiful Week is held late August each year, to raise awareness about the simple things we can all do in our daily lives to reduce our impact on the environment and encourage action. **Doing your part is simple, find our more here.**

Book reviews

Beautiful picture books that promote strength, courage and unity.

THE BUG GIRL

Sophia Spencer and Margaret McNamara | AGE 4 - 8

Real-life 7-year-old Sophia Spencer was bullied for loving bugs until hundreds of women scientists rallied around her.

Now Sophie tells her inspiring story in this picture book that celebrates women in science, bugs of all kinds, and the importance of staying true to yourself.

IN A JAR

Deborah Marcano | AGE 3 - 7

Llewellyn, a little rabbit, is a collector. He gathers things in jars--ordinary things like buttercups, feathers, and heart-shaped stones.

Then he meets another rabbit, Evelyn, and together they begin to collect extraordinary things--like rainbows, the sound of the ocean, and the wind just before snow falls. And, best of all, when they hold the jars and peer inside, they remember all the wonderful things they've seen and done. But one day, Evelyn has sad news: Her family is moving away. How can the two friends continue their magical collection—and their special friendship—from afar?

YOU MATTER

Christian Robinson | AGE 4 - 7

this sensitive and impactful picture book about seeing the world from different points of view.

In this full, bright, and beautiful picture book, many different perspectives around the world are deftly and empathetically explored—from a pair of bird-watchers to the pigeons they're feeding. Young readers will be drawn into the luminous illustrations inviting them to engage with the world in a new way and see how everyone is connected, and that everyone matters.

FOCUS: The incredibly simple secret to making mornings in your house more harmonious

I am definitely a crabby Mum first thing in the morning! I don't want to be talked to. I don't want to talk back. I don't want to make breakfast; I don't want to hear the cartoons. I just want to be left alone until I'm ready.

This is not because I've woken up on the wrong side of the bed. It's because I have a brain, and brains are computers and they need to load before they can work. When we turn on our computer, we don't expect that we can immediately get stuck into that spreadsheet or Google search, we know it needs time to load. Our brain is no different! It needs to become active. It needs to get ready before we can do all the things.

But with our modern-day, rushed and urgent lifestyle, we make very little time or space first thing in the morning to prime our brain before we need to start using it.

And if we, as adults, experience this crabby, anxious morning feeling just imagine how much harder it must be for a child, especially a young child who doesn't yet have the emotional regulation skills that we as adults generally do. And yet they're expected to get up, get dressed, sit at the table, have their breakfast, do their teeth, remember their library book, pack their lunch and all the other morning jobs. Imagine the crabbiness, the anxiety that they must experience.

All of these morning tasks require what we call 'executive functioning' and the brain needs to be active before it can make these things happen.

If our kids haven't had sufficient time in the morning to play, to do some stretching, to move, to have some music, use their imaginations, a little bit of creative time or fresh air — then their brain is not necessarily going to be primed in the way they need it to be so that they can function easily.

But fear not! Because it is super simple to prime our brains, and one of the best ways to do this is with music.

Research tells us that when we experience music, more of our brain activates than it does when we experience any other thing. And this can happen from listening to music, making music, or even just thinking about it.

So, simply listening to music in the mornings as part of your daily routine will help activate your brain and your child's brain so that everybody can work together more harmoniously in the mornings. I recommend choosing songs that your children love, make a playlist, listen to your favourite CD. You could opt for an early morning disco

party — just turn on the music and all have a quick dance around the lounge room together.

A really important element of music is its physicality. Movement, dancing, stretching. This, in conjunction with rhythm and melody, absolutely does wonders for getting the brain active and ready to work!

These strategies are super simple, they don't take a lot of time and you don't need to be musical to be able to achieve them.

So if you or your children are finding that you're crabby in the morning, anxious, worked up, not functioning at your best, not able to get the jobs done on time then these simple, music based exercises are a must — and a fun one at that — to get you walking out the door harmoniously and calmly.

SOUND SPOTTERS

The ability to listen closely is a key ingredient of phonemic awareness. This is the part of instruction that is skipped most often, because we assume that young children know how to listen. They may not!

After a busy morning or afternoon lie quietly on the floor with your children. It's not nap time, but it's a great time to unwind, which is important for young children. As you lie there quietly for five to ten minutes, listen for sounds. Become "sound spotters". Don't use your eyes — use your ears. There are always sounds and weird noises you can hear in your home or outside: an air conditioner, doors closing, stomachs growling. The possibilities are endless! Your part is to talk about the sounds you and your children hear. Use a little enthusiasm and exaggeration to get the kids interested in this activity. The key phrase is, "Who can spot a sound with their ears?"

ABSENT DAYS, SWAP DAYS AND CASUAL DAYS

In order to make swap days and casual days available to all our families it is crucial that our families notify us as soon as possible that their child will be absent or is unwell so we can offer it to another family in need.

We wanted to let everyone know that our French teacher, Basketball coach, St Ursula's Students and school photos are all on standby for when we begin to welcome people into the centre again. The next two weeks will be an indicator of how long we will remain in lockdown. Fingers crossed it won't be for long!

Please remember that the new recommendation from NSW health is to wear masks if in areas where social distancing is too difficult. These places may include- public transport, supermarkets, shops, places of worship, if working in cafes, restaurants, pubs, clubs, and other venues with higher risks of transmission.

Stay Safe everyone!

Thunderstruck

Short simple activities to get some active minutes in the day.

Find an open area to jog laps in or simply jog in place at a moderate pace. Find the song "Thunderstruck" by AC/DC on YouTube and play it. During the song, you should listen closely for the words "Thunder" or "Thunderstruck". Every time these words are said, perform a burpee (or a version of that your child/ren can perform). This will go on for the entirety of the song!

You can choose any song you like; simply choose the word/phrase in the song you will perform the burpee on and press play.

WHAT'S IN THEIR POCKETS?

Looking into a child's pocket opens a magical window into their daily experience. Small children in six countries emptied the contents of their pockets and were asked about their haul. From Argentina to the Ukraine, the results were as cute and baffling as you might expect.

The six families chosen to be featured in the story all agree that it has been an adventure to discover what their kiddos are carrying around as treasures.

The biggest similarity among the international kids was candy. Half of them said it was their favourite thing to keep in their pocket. When asked, 'If you could fit anything in your pocket, what would it be?', **William**, from the USA, doubled down on his sweet tooth, saying: "Five thousand pieces of candy!" On one memorable day, William's pockets contained Skittles with all the colours licked off. He told his parents the colourless Skittles were candies for Harry Potter. **Nadya** from the Ukraine chose 'slime' as the number one thing she wished she could carry in her pocket. The reason? Because "mother forbids it." The fun continued when parents were asked the question: "What's the weirdest thing you found in their pockets?" The mother of **Bilal**, a five-year-old from India, answered with four words. "My husband's credit card." **Wyatt's** parent in the U.K admitted, "I was both incredibly confused and relieved when I found my missing house keys there once." She explained, "Not all of my house keys, just the keys that were attached to a BB-8 key ring that he'd decided was now his."
